For: POTASSIUM CHANNELS, NUCLEOTIDE SEQUENCES ENCODING THEM, AND  
METHODS OF USING SAME

Assistant Commissioner for Patents  
Washington, D.C. 20231

**REQUEST FOR APPROVAL OF DRAWING CHANGES**

Sir:

Subject to the approval of the Examiner, Applicants respectfully request that Figure 4 of the above-identified application be amended as indicated in red ink on the attached copy of the originally-filed drawing. Applicants note that the drawing changes requested in the submission of June 23, 2000, incorrectly identified the Sequence Identifiers corresponding to the protein sequences disclosed in Figure 4. The correct Sequence Identifiers are indicated in red ink on the attached copy of the originally-filed drawing. The Sequence Identifiers indicated on the attached copy are consistent with the Sequence Identifiers recited in the Brief Description of the Drawings section of the application (pp. 7-10).

Upon approval of the proposed change, Applicants request that the submission of revised formal drawings be deferred until after a Notice of Allowance has issued.
